

KELBLY'S RIFLE RANGE
RULES AND REGULATIONS
MEMBERS ONLY

1. Safety First is a must at all rifles and pistols on the range.
2. All rifles' actions are to be open unless actually being fired or the weapon is cased.
3. All semi automatic rifles shall be shot single shot or if clip is used you cannot fire shots any faster than 1 shot every 5 seconds.
4. Absolutely no automatic weapons allowed.
5. Absolutely no 50 caliber BMG allowed.
6. Absolutely no pistols or 22 rimfire weapons on the 100 & 200 yard ranges.
7. Absolutely no trap or skeet shooting allowed anywhere on the farm.
8. Absolutely no hunting allowed anywhere on the farm.
9. Fire only at paper targets attached to the target frames. Leave your cans, jugs etc. at home.
10. Place your targets so as not to fire through the target frames & supporting posts.
11. No targets are to be placed at intermediate distances.
12. All firing is to be done from the established firing lines.
13. Before going to the target frames, clear with all shooters on the firing line. Be cautious with those wearing sound arrestors & people that may be hard of hearing. They may not hear you.
14. After returning from the target frames, be absolutely certain all is clear before commencing to fire.
15. Be considerate - if you use a spotting scope and have no need to go to the target frames, give those without a spotting scope a chance to check their targets. On the other hand - those without a spotting scope should not expect to run to the target frames after each shot or two.
16. The use of the range should be considered a privilege & should not be abused. Make sure your conduct on the range shows appreciation for this privilege. There are many people (anti-gunners) looking for reasons to remove both range & guns. The Club needs your support to help defeat those people.
17. Members caught breaking any of the above rules & regulations will be barred from the range.
18. It is recommended that all shooters wear ear & eye protection.
